An experienced senior information professional with strong retrieval, e-resource and staff management skills, versatile, innovative and forward-thinking.

## Career history

**Moorfields Eye Hospital NHS Foundation Trust: NHS Evidence Eyes and Vision Information Specialist/Librarian, October 2010-March 2011;** providing information science support to the project by maintaining and developing the content of the collection; training of health professionals in the use of online resources such as NHS Evidence and the specialist collections.

- wrote and published Evidence Updates
- advised Royal College of Ophthalmologists on guidelines development
- taught information management to Specialist Registrars

**South Thames College: Head of Learning Resources, March 2008-July 2010;** managing delivery of learning resources to support learning and teaching to a London further education college, managing a team of thirty and a budget of £660,000.

- planned and managed the reconfiguration of services, moving and merging two of our three centres into a modern learning resource centre in a new building on the college's Wandsworth campus
- developed and implemented a new staff structure for the whole service
- introduced many new online services, raised the Learning Resource Centres' online profile and managed procurement of a new library management system
- participated in the merger of South Thames College with Merton College, and planned for the harmonisation of library and information services from the two merger partners

**Sussex Language Institute: Resources Co-Ordinator, January 2007-February 2008;** managing a university language learning centre.

- managed acquisitions and cataloguing for stock
- established a language learning blog
- managed an enquiry service for language learners and teachers
- managed non-professional staff and interns

**National Library for Health: Consultant, July to October 2006;** developing a RSS directory for the National Library for Health.

**Brighton & Sussex Medical School: Information Resources Development Coordinator, 2002 to 2006;** planning, developing and managing information and library services to a new medical school

- set up electronic and print library services for students, lecturers and researchers from scratch.
- delivered information skills training as part of the undergraduate curriculum
- developed a current awareness service for medical educators using RSS feeds, the first in the country

**Royal College of Veterinary Surgeons: Head of RCVS Library and Information Service, 1997 to 2002;** strategic management of library and information services to the veterinary and allied professions

- implemented online services for remote users
- developed the College's website from a single place holder to a rich resource for the profession and the public
- successfully managed migration to new library management system and managed retrospective cataloguing of the College's historical collection
- put forward bid and managed the ASVIN (Assessing and Supporting Veterinary Information Needs) project, a collaborative collection management project involving partners in universities, the private sector and a charity
